

AEROSPACE LIVES HERE

Ontario is a place where global giants expand their operations and suppliers export the highest quality parts at competitive prices. Ontario manufacturers are part of the global supply chain for virtually every passenger aircraft in the world, and the aerospace industry works closely with academia to develop and commercialize new products and technology.

Home to leading aerospace and space companies, Ontario is a world leader in producing avionics, aerostructures, landing gear, MRO and modifications, aircraft engines, comprehensive unmanned aerial systems, and space systems and satellites.
